**Sanitary Protocol**

**HEALTH & SAFETY PLAN FOR UWW EVENTS  
Guidance for Event Organizers and Participants**

These guidelines are intended to assist Organizers implementing measures to reduce the possibility of viral transmission to a minimum during UWW Events. They complement the sanitary requirements prescribed by public authorities. They do not replace all other requirements as provided by the UWW Medical Regulations.

Wrestling being a contact sport, it is at higher risk of viral transmission during viral epidemic and pandemic periods. Hence a higher degree of attention and more stringent measures are required from the Wrestling community.

Individual responsibility is also key to protect the health of everyone. In that respect, detection of infected people and virus carriers with no symptoms help reducing those risks. In case of any doubt by an athlete or a participant for a potential viral infection, it is his/her individual responsibility to consider self-quarantine, refrain from participating in sports activities (training, competition) and refer to a hospital or an officially designated centre by the authorities.

This document is subject to changes depending on the evolution of the pandemic and the progress made by the scientific community with regards to diagnostic approaches, antiviral treatments and vaccine.

**In addition to public authorities' requirement and to these guidelines, Organizers must refer to the recommendations of the World Health Organization**

<https://www.who.int/emergencies/diseases/novel-coronavirus-2019>

### **1. World Health Organization (WHO) tools**

It is WHO's view that all countries with community transmission should seriously consider postponing or reducing mass gatherings that bring people together and have the potential to amplify disease and support the recommended best practice of physical distancing. Any decision will be supported through the use of WHO tools, in particular the **Risk Assessment for Mass Gatherings during COVID-19**.

**If movement restrictions** and further national measures have been established in the country, the WHO risk assessment **does not apply**.

However, when the process of re-opening/conducting mass gatherings is being considered post movement restrictions, it will be key to ensure any decisions are based on a risk assessment, such as the WHO Mass gatherings COVID-19 risk assessment.

The detailed **links** to the various WHO tools are noted below.

5

### 5.9 Anti-doping tests

- Doping Control Station shall have sufficient space to allow social distancing. Consider several stations.
- Doping Control Officers shall protective masks and gloves.
- Ensure your NADO/service provider is aware of and applies WADA's guidelines (Covid-19: ADO's Guidance for Resuming Testing).

### 5.10 Communication

- Inform all participants and UWW as early as possible of any sanitary requirements **to comply with and to be prepared for** by foreign visitors (quarantine, medical certificates, epidemiological questionnaires to be filled in, etc).
- Any other restrictions during the event shall be clearly communicated to all participants well in advance.
- Provide clear **information (posters, flyers, videos, etc)** in English in the competition venue about the above **basic precautions** (washing hands regularly, cover coughs/sneezes with a flexed elbow or disposable tissue, avoid touching eyes-nose-mouth). **Promote** regular and thorough hand-washing.
- Ensure that all measures are enforced by all participants and assign dedicated staff for this purpose.
- Limit delegations' accompanying staff in the different areas and functions (accreditation, weigh-in, warm-up area, call-room, FOP, BOH, etc).

### 5.11 Medical examinations & weigh-ins, draw

- Referees: 1 referee maximum per scale.
- No Team Leaders or Coach allowed in the weigh-in medical examinations & weigh-in area
- The rooms used for weigh-in and for the draw shall have sufficient space to allow social distancing. Mark social distances on the floor with rubber for queues during weigh-in.
- Sufficient time must be planned to allow disinfection of scales and other devices during weigh-in time.
- Whenever possible, the entrance and the exit (weigh-ins & draw, if applicable) should be distinct and clearly designated.

### 5.12 Post-event administration

- **Retain the names and contact details** of all participants for at least one month. This will help public health authorities trace people who may have been exposed to COVID-19 if one or more participants become ill shortly after the event. Consider the applicable **laws on privacy and personal data protection**.
- If anyone at the event was isolated as a suspected COVID-19 case, the organizer should inform UWW and all participants. They should be advised to monitor themselves for symptoms for 14 days and take their temperature twice a day.
