The sanitary protocol aims to protect health and life of all participants in the U23 Petko Sirakov - Ivan Iliev International Tournament and to reduce the possibility of viral transmission to a minimum during this Event.

As a contact sport, wrestling is at higher risk of viral transmission so higher degree of attention and more stringent measures are required from the Wrestling community.

This sanitary protocol is based on the current sanitary requirements provided by Bulgarian government against Covid - 19 as well as with UWW Guidance for Event Organizers and Participants

According to the latest regulations under Bulgarian legislation, and due to the fact that in recent weeks the number of newly infected with Covid-19 has sharply decreased, the different color zones for those arriving in the country have dropped out.

3. In order to provide the best possible conditions for accommodation, training and competition and to reduce the risk of Covid-19 transmission a “sanitary bubble” will be organized until accreditation of the participants.

All restrictive measures are lifted after negative rapid test and accreditation.

4. Sanitary measures requested by UWW for LOC (Local Organizing Committee):

- All participants shall present at accreditation a certificate of negative PCR test of less than 72 hours.
- Testing of all Participants using rapid antigen test shall be performed before accreditation.
- All participants will be asked to complete and sign a questionnaire related to Covid-19.
